Examiner <i>Shusho</i>	Date Considered <i>6/4/03</i>
------------------------	-------------------------------

Examiner: Initial if citation considered, whether or not citation is in conformance with MPEP 609. Draw line through citation if not in conformance and not considered. Include copy of this form with next communication to applicant.

The identification of any document herein is not intended to be, and should not be understood as being, an admission that each such document, in fact, constitutes "prior art" within the meaning of applicable law since, for example, a given document may have a later effective date than at first seems apparent or the document may have an effective date which can be antedated. The "prior art" status of any document is a matter to be resolved during prosecution.

Applicant respectfully requests that the documents cited herein be made of record in the normal manner that such documents appear on the printed patent as being considered and made of record.
